FlightSim Source File Archive

7/11/2009

The FlightSim Source File Archive is an offline facility for the storage, preservation and sharing of FSDS and Gmax source files. Developers can deposit copies of their design work in the archive for safekeeping and sharing with other developers. The author of the file retains strict control over access to his files, and may withdraw them from the archive at any time.

The archive is a non-commercial organization established and operated by developers on a voluntary basis.
